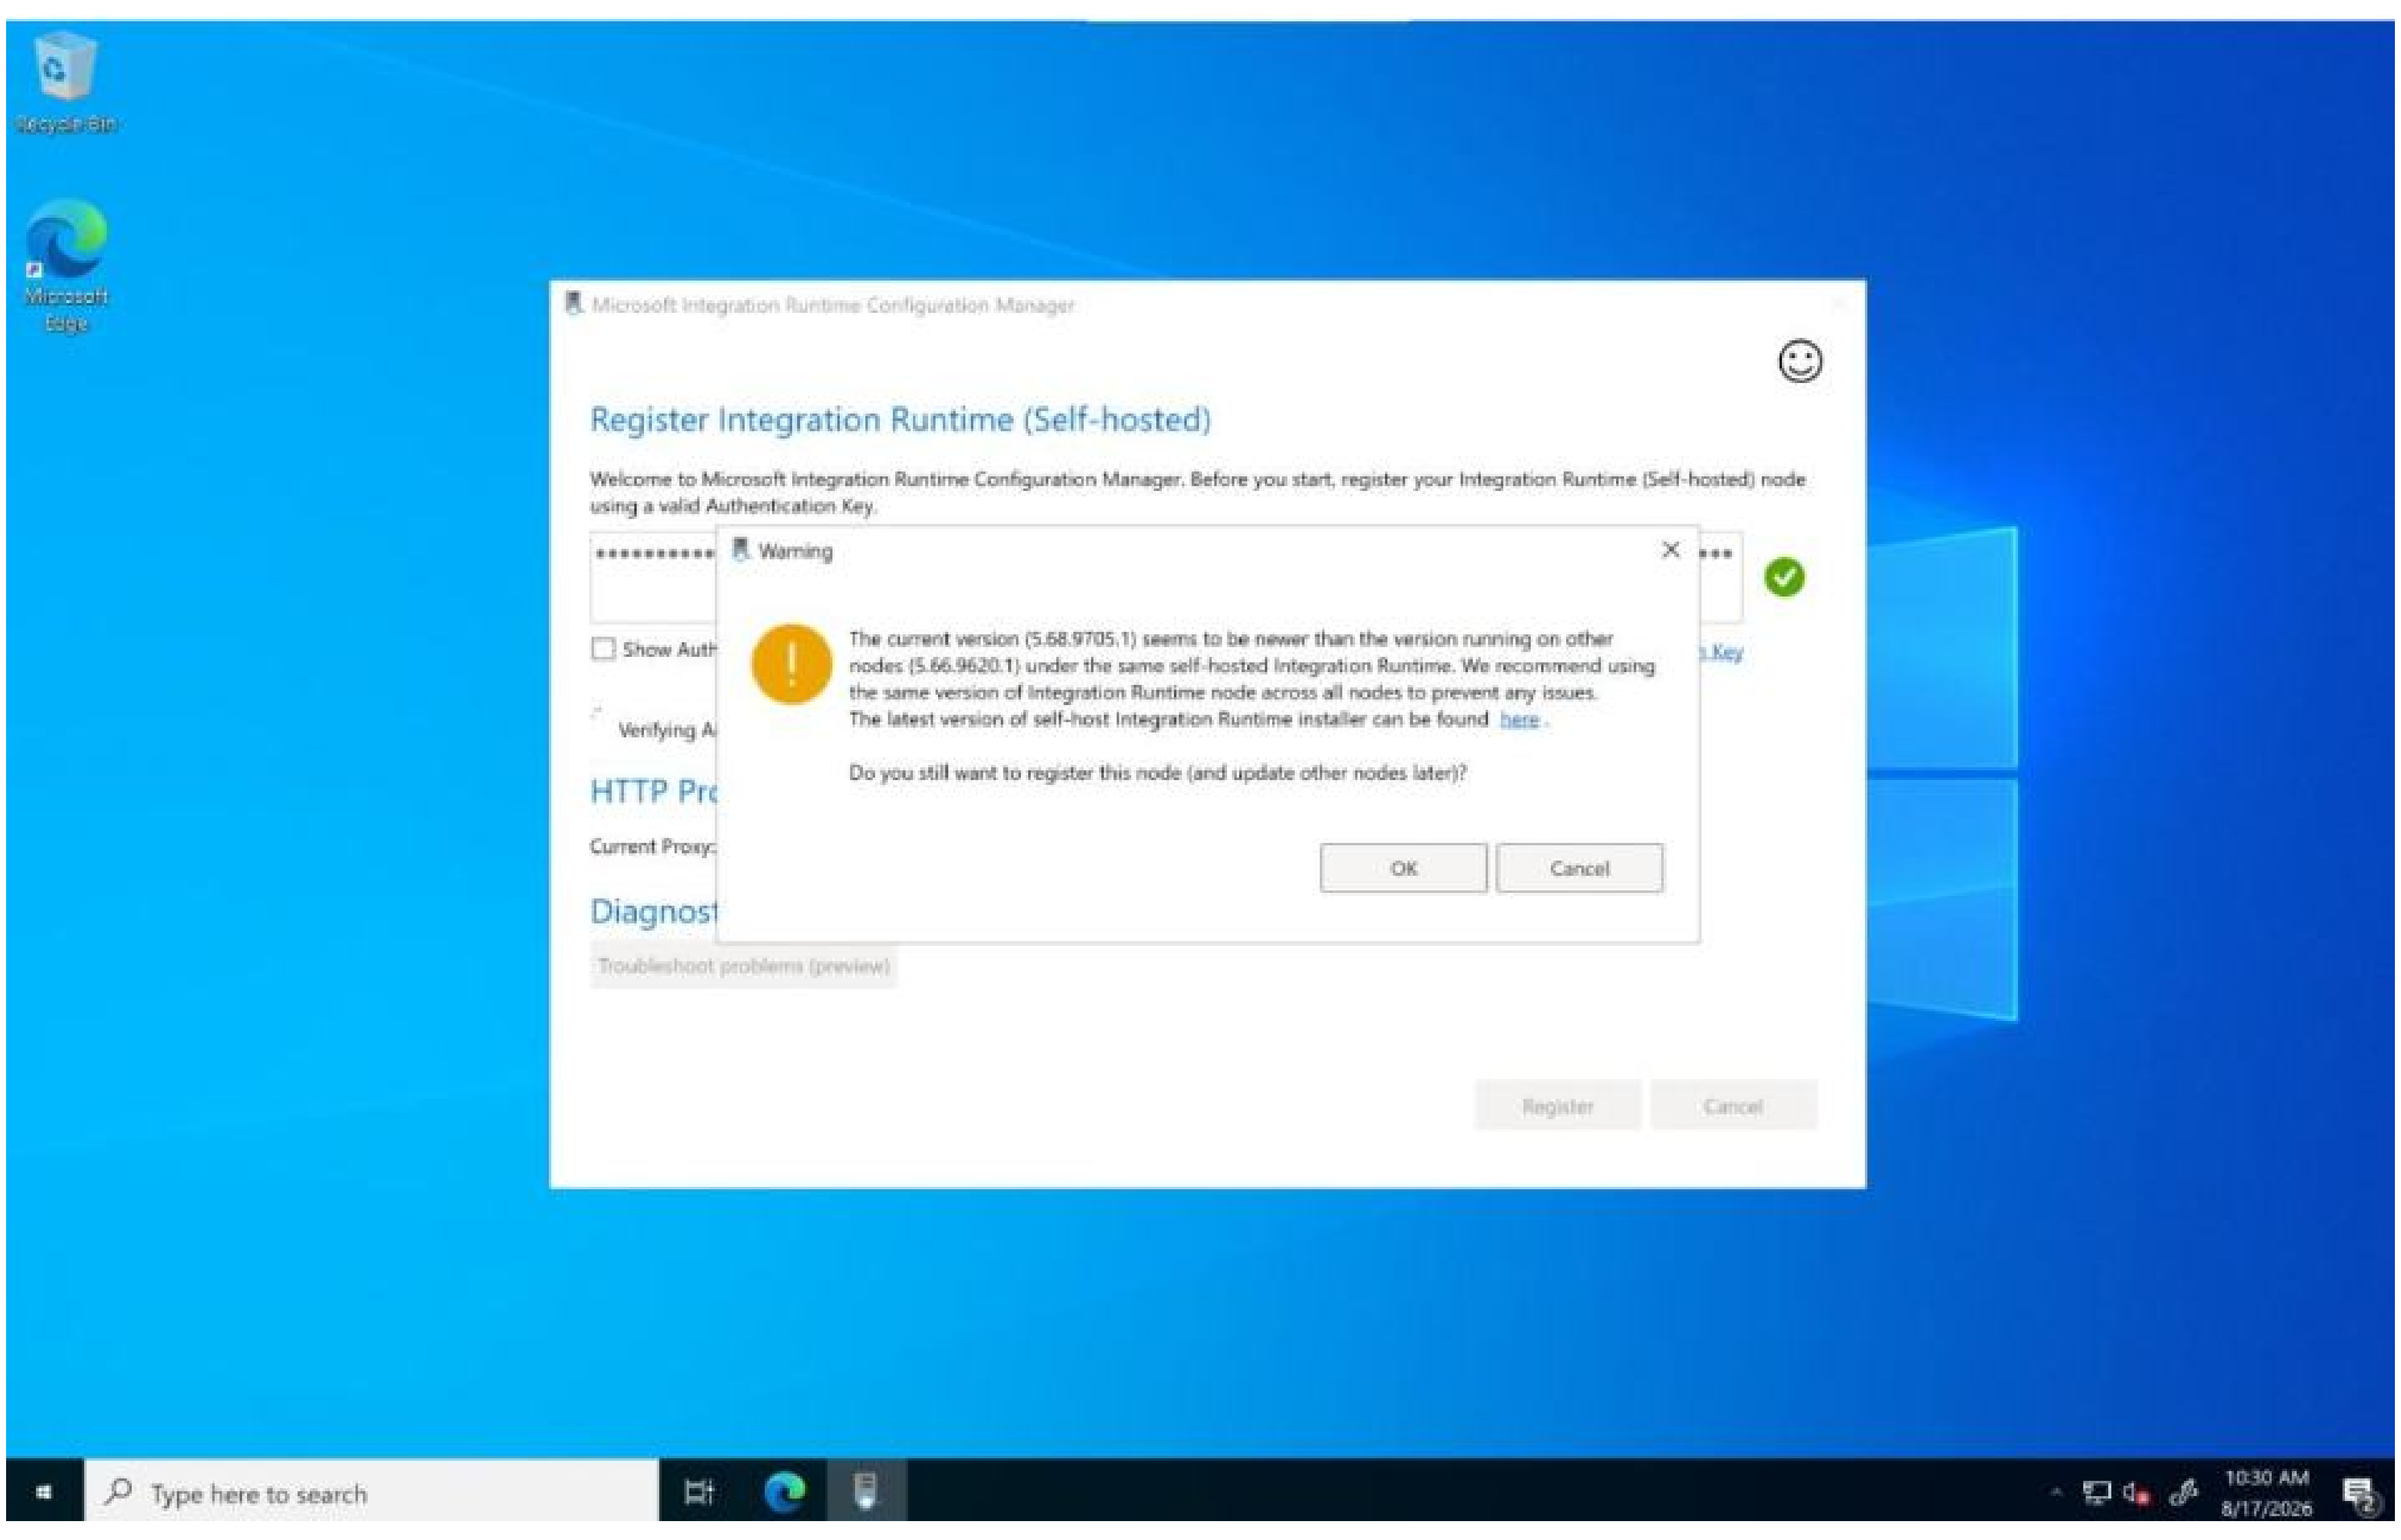
Virtual machine

Computer name	VM-cal147
Operating system	Windows
VM generation	V2
VM architecture	x64
Agent status	Not Ready

Networking

Public IP address	104.211.117.158 (Network interface vm-cal147757) 1 associated public IPs
Public IP address (IPv6)	-
Private IP address	172.16.0.4
Private IP address (IPv6)	-

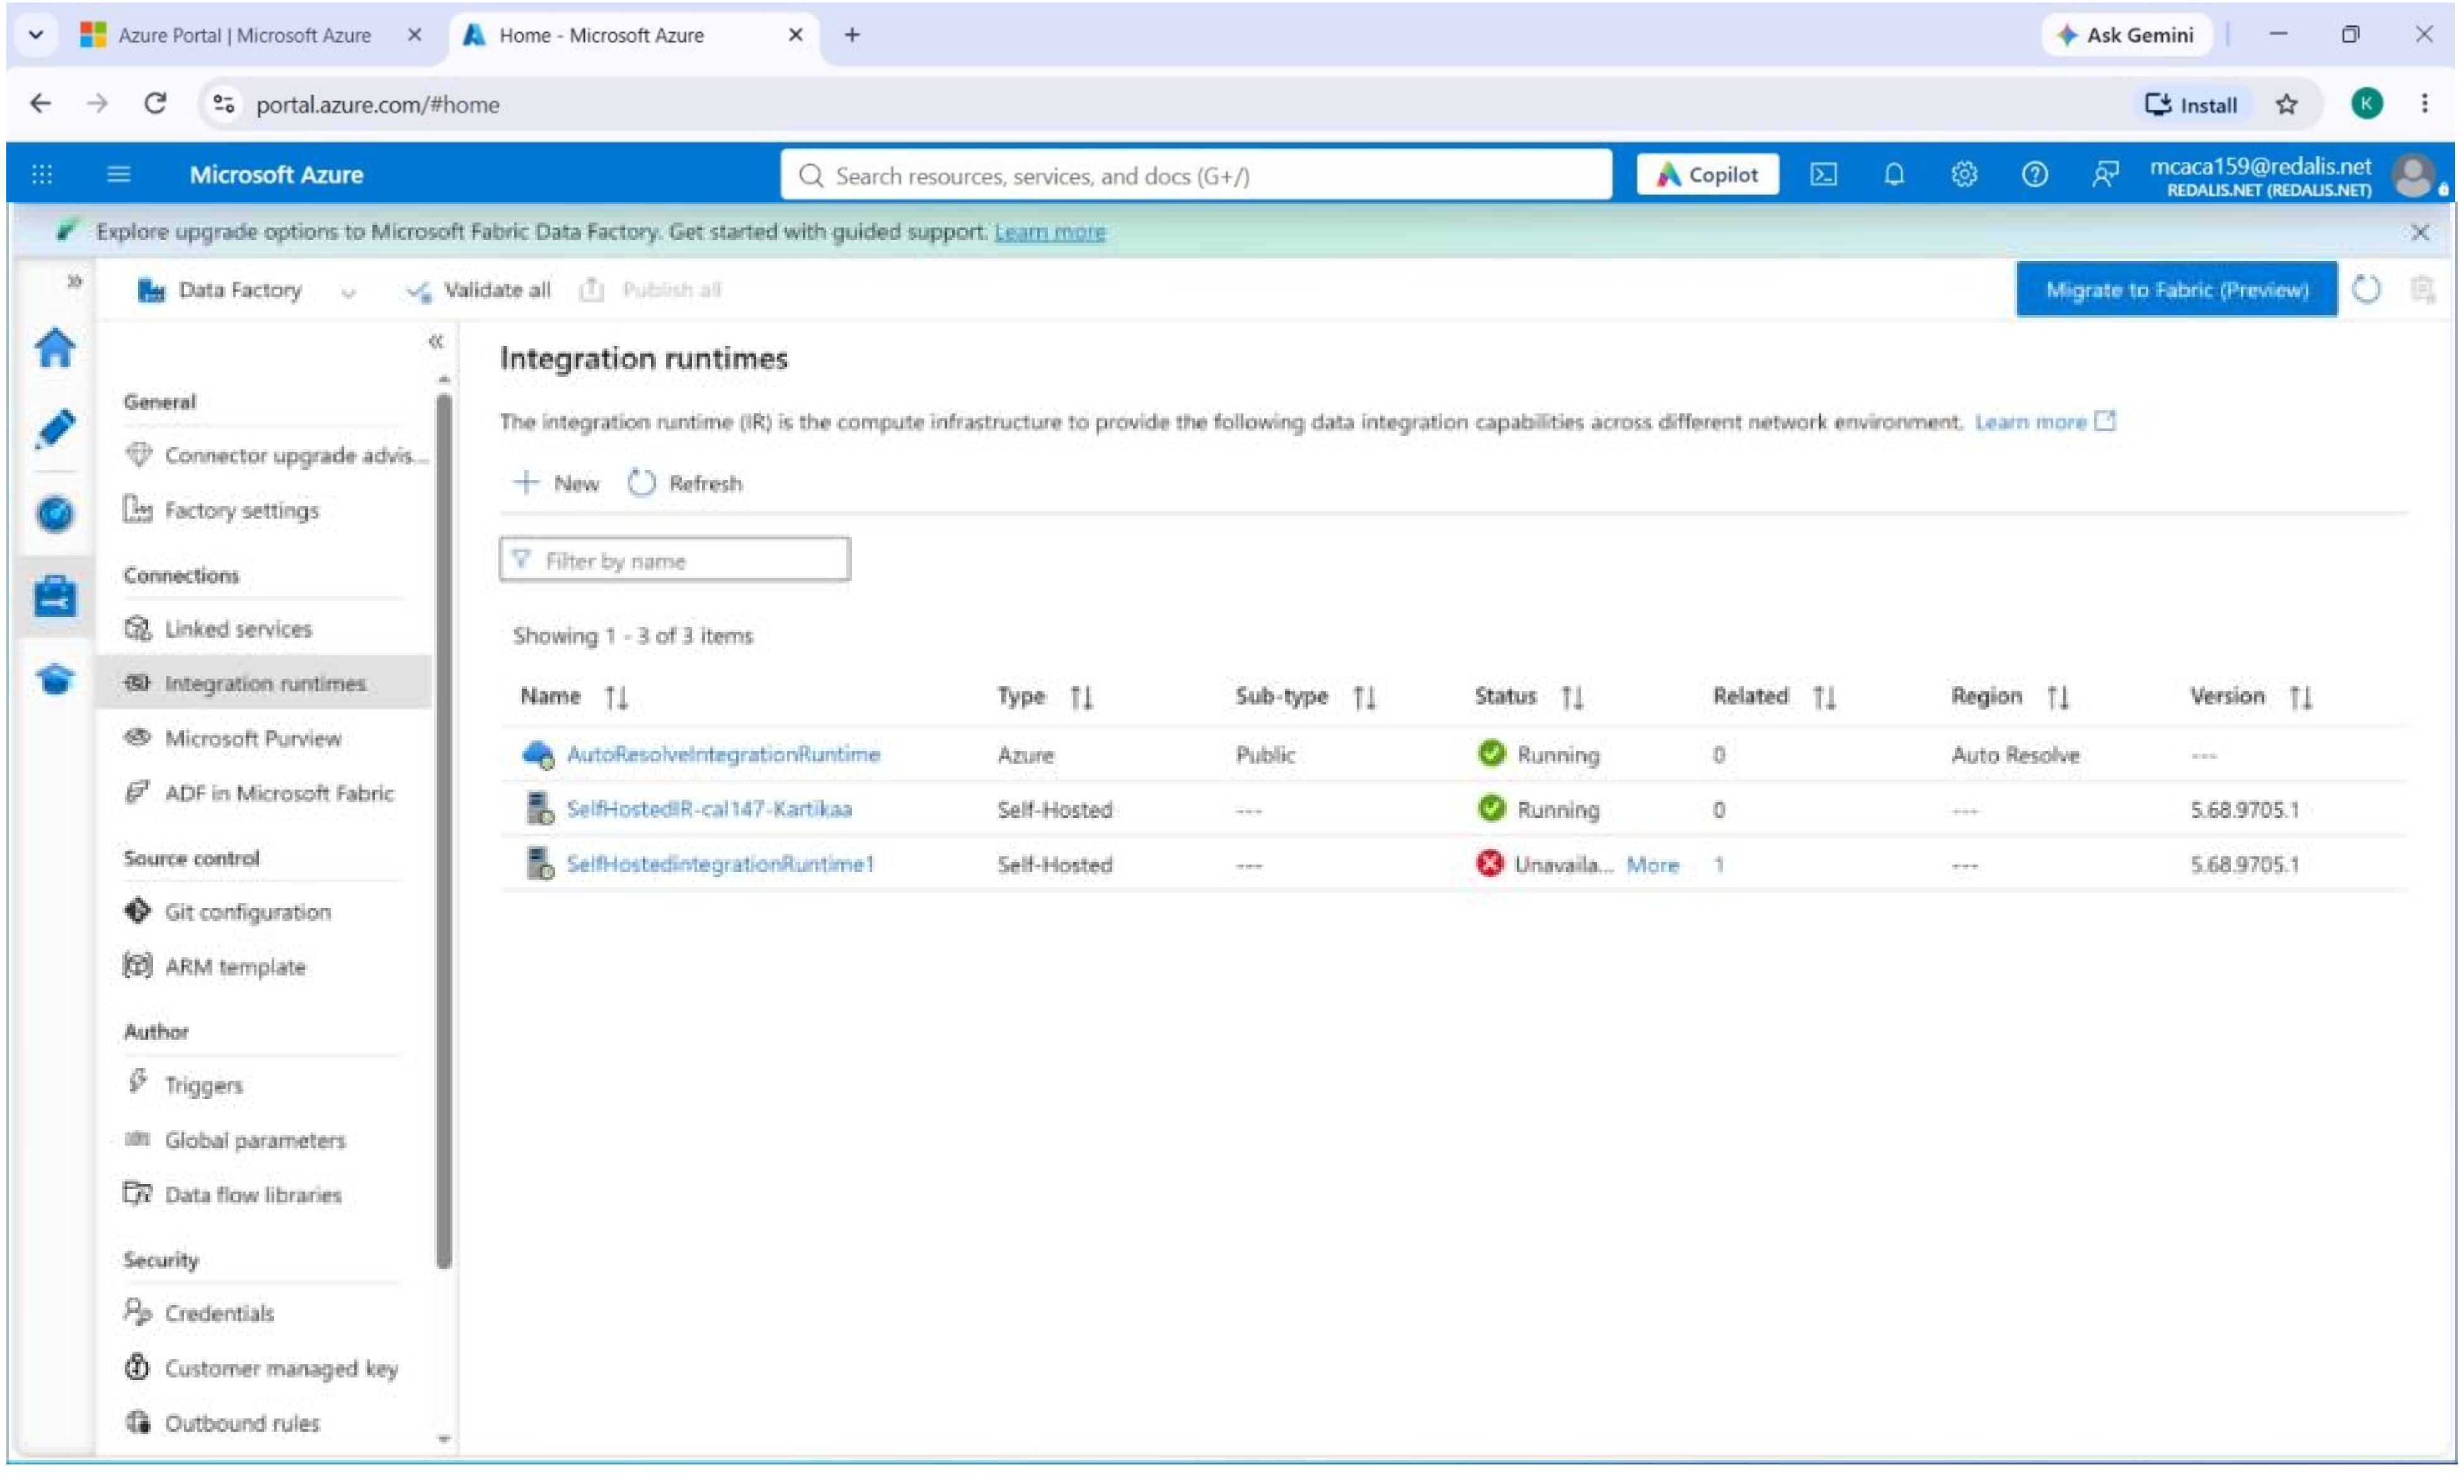


Register Integration Runtime (Self-hosted)

Welcome to Microsoft Integration Runtime Configuration Manager. Before you start, register your Integration Runtime (Self-hosted) node using a valid Authentication Key.

The current version (5.68.9705.1) seems to be newer than the version running on other nodes (5.66.9620.1) under the same self-hosted Integration Runtime. We recommend using the same version of Integration Runtime node across all nodes to prevent any issues. The latest version of self-host Integration Runtime installer can be found here .

Do you still want to register this node (and update other nodes later)?



Explore upgrade options to Microsoft Fabric Data Factory. Get started with guided support. Learn more

Integration runtimes

The integration runtime (IR) is the compute infrastructure to provide the following data integration capabilities across different network environment. Learn more
